

Dear Watson

Perhaps you have
already known about
this collection. Yours truly
C. C. Clark

14 May 1890.

Dear Dr. Goodale,

One of the members
of the Chinese Customs Service,
Dr. Henry, by name, while
stationed at Ichang some
900 miles up the Yangtze
River made an important
collection of the plants of
Central China. They are
being arranged now by the
Kew authorities & in about
two months the duplicate
sets are to be for sale.

Each set numbers about 2000
& roughly the price will be
£20-30 a set. St. Henry
has no pecuniary interest in
the sale, I believe. But it
w^d please him to know that
I toward possessed a set of
his gathering. The few
people will give you every
information if you care to
ask. I thought I w^d tell
you of this so that you
w^d have time to think of it
before you prepare to go on

leave.

Please give my kindest
regards to Mrs. Goodale &
y^r daughters my best wishes
for the health of all at
54.

Very truly yours

W. C. C. C.

I leave for New York by
the 'Etruria' of 7 June.
